DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Group I, drawn to claims 1 – 6, which claim a thin film magnetic memory device, including: a plurality of memory cells...; a dummy memory cell...; a first data line...; a second data line...; a data read circuit....

Group II, drawn to claims 7 – 12, which claim a thin film magnetic memory device, including: a plurality of memory cells... wherein each of said memory cells includes: an access gate...; a magnetic storage portion...; said magnetic storage portion includes: a first magnetic layer...; a second magnetic layer...; a first insulating film...; a data line...; a reference data line...; a plurality of dummy memory cells...; each of said dummy memory cells includes....

Group III, drawn to claims 13 – 14, which claim a thin film magnetic memory device, comprising: a plurality of magnetic memory cells...; a dummy memory cell...; each of said magnetic memory cells and said dummy memory cell include....

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Conclusion

3. A shortened statutory period for response to this action is set to expire 1 (one) month and 0 (zero) day from the date of this letter. Failure to respond within the period for response will cause the application to become abandoned (see MPEP 710.02(b)).
